Declaration regarding EC Construction Products Regulation (CPR)

Dear Mr. Basta!

As requested we declare, with reference to the provisions of EC Construction Products Regulation (CPR), Regulation (EU) No 305/2011, that all products we deliver to TOPDOM d.o.o. do not need a Declaration of Performance (DoP) certificate.

Regarding to the regulation, a Declaration of Performance can be issued only when a product is covered by a harmonised European standard (hEN).
The valid European Standards for the products we deliver to TOPDOM are not harmonised till now.

Anyways, our products are produced and checked by external auditing firms regarding EN ISO 9001:2008 and DIN ISO 14975:2010.

With kind regards

Johannes Franek
